Erie County, NY Awards Black Creek Security System Upgrade

Birmingham, AL – October 1, 2014 – Black Creek has been awarded a contract to upgrade the security system at the Erie County Holding Center, the second largest detention facility in New York State, outside of New York City. The facility holds 884 beds and is located in Buffalo, New York. Black Creek has been working with Erie County since 2010. The existing security system will be updated to a Black Creek [Super Display® Touchscreen Security System](#).

The scope of the project involves installing a new intercom and paging system, CCTV system, nine new touchscreen control stations and other equipment as necessary. Erie County currently use Black Creek's [Watch Tour Manager®](#) application, [SallyPort® Jail Management System](#), and [Personal Detention Assistant® \(PDA\)](#). The new Touchscreen System will seamlessly merge with the existing Black Creek systems to be able to display inmate data on housing unit touchscreen stations, automate many inmate data collection and log entry tasks, operate dayroom controls wirelessly, and streamline facility operations.

The upgrade will make security control easier and save the facility money by decreasing maintenance costs and increasing staff efficiency.

More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, Touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
