## **Seneca County, NY Awards Black Creek Touchscreen CCTV System Upgrade**

---

Birmingham, AL – January 14, 2015 – Black Creek has been awarded a contract by Seneca County, NY to upgrade its existing touchscreen control CCTV System at the Seneca Law Enforcement Center. Black Creek has been working with Seneca County since 2005. Seneca County Law Enforcement Center currently uses Black Creek's [Super Display® Touchscreen Security System](#), and [SallyPort® Jail Management System](#).

The scope of the work will include furnishing and installing four digital video workstations with 23" LCD monitors, digital video recording system to provide about 30 days storage, six new Black Creek touchscreen computers, and upgrading the current software to the latest Windows version of the Black Creek touchscreen and server software.

Each [Super Display® Touchscreen](#) station features a 32" LCD monitor that displays all the facility's security controls and a CCTV camera call-up and video display. An officer can easily select different camera viewpoints, control facility utilities, and more. The system provides agencies with a modern solution that incorporates all aspects of correctional facility physical security into a single, fully integrated package.

Black Creek's [Digital Video Recording](#) system extends the "eyes" of control room officers. Existing or new security cameras are set up in user-configurable display formats on Black Creek's high-resolution LCD touchscreen monitors and can also be accessed over the internet by authorized users. All CCTV feed is recorded 24/7 for a timespan determined by the facility. Authorized personnel can burn footage to DVD or with tamper-revealing security for evidentiary purposes.

These improvements to Seneca County Law Enforcement Center will make security control easier and save the facility money by decreasing maintenance costs and increasing staff efficiency.

### **More about Black Creek ISC**

Black Creek Integrated Systems is a turn-key source for modern, touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
