Suffolk County, NY Awards Black Creek Touchscreen Upgrade

Birmingham, AL.– April 10, 2015 – Black Creek has been awarded the contract to update the existing security system at Suffolk County’s correctional facility located in Yaphank, New York. The Suffolk County Correctional System is the fourth largest jail system in the state of New York. The existing Black Creek system has been in use at Suffolk County’s Riverhead and Yaphank facilities since 2010.

Black Creek will be expanding the existing [Super Display® Touchscreen System](#) in Yaphank to accommodate the addition of new devices as part of their dorm renovation project. The project includes furnishing and installing new intercom stations, paging speakers, closed circuit television (CCTV) cameras, and network video recorders.

Each [Super Display® Touchscreen](#) station features a 32” LCD monitor that displays all the facility’s security controls and a CCTV camera call-up and video display. An officer can easily select different camera viewpoints, control facility utilities, and more. The system provides agencies with a modern solution that incorporates all aspects of correctional facility physical security into a single, fully integrated package.

These improvements to Suffolk County’s Yaphank facility will make security control easier and save the facility money by decreasing maintenance costs and increasing staff efficiency.

More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
