## Electronics Technician

Black Creek Integrated Systems is a leading national supplier of integrated electronic security systems for the correctional industry. As a result of our 40+ years' experience and reputation in the corrections industry, Black Creek's technology has become a standard nationwide for many architectural and engineering firms specializing in criminal justice work.

We are seeking a qualified and experienced electronics technician for a full-time position in our Assembly Shop Department.

### Essential Duties

- Perform a variety of wiring and assembly operations on electrical panel assemblies or components including layout, assembly, wiring, and testing
- Configure and test electronic equipment and systems utilizing command-line interface, web interfaces, and Windows desktop applications
- Use testing equipment and power tools
- PC Computer assembly, setup and testing
- Ensure that acceptable level of quality control is kept
- Ensure that schedules are met

### Qualifications

- Prior experience with computers and electronics is **REQUIRED**
- Ability to lift minimum of 50 pounds
- Ability to differentiate colors
- Availability to travel for work away from office
- Willingness to work inside correctional facilities as required
- Knowledge of and ability to use basic hand tools (hand drill, drill press, band saw, etc)
- Ability to solder small wire and components
- Knowledge of and ability to read a tape measure and scale off drawings for equipment layout
- Ability to work with little or no supervision
- Ability to read and understand electrical schematics and instructions
- Must have and maintain a clean driving record with valid driver license
- Must pass and maintain a criminal history/background check sufficient to work inside correctional facilities
- Must furnish basic hand tools (screwdrivers, crimpers, wire strippers, tape measure, multimeter, etc.)
- Must be willing to work overtime as needed
- Perform additional tasks as directed by management

### Education, Certifications, Licenses

- Electronics degree or equivalent work experience in a related technical area is not required, but will improve candidacy.
