## **Seneca County, NY Awards Black Creek Contract to Install ACTS Software**

Birmingham, AL – October 23, 2015 – Black Creek has been awarded a contract by Seneca County, NY to implement its Applied Correctional Transition Strategy (ACTS) Software at the Seneca Law Enforcement Center. Black Creek has been working with Seneca County since 2005. Seneca County Law Enforcement Center currently uses Black Creek’s [Super Display® Touchscreen Security System](#), and [SallyPort® Jail Management System](#).

Black Creek’s [ACTS](#) software greatly reduces recidivism in jails by offering jurisdictions the ability to quickly screen all populations for the risk to reoffend. For pretrial offenders it offers the flexibility to bypass full risk assessment in order to avoid forensic or legal conflict. Designed by veterans in the corrections profession, ACTS puts information at the fingertips of jail administrators, officers, practitioners, therapists and policy-makers to ensure that the actions they take regarding correctional policy & procedure lead to the most productive and cost-effective outcomes.

This improvement to Seneca County Law Enforcement Center will make security control easier and save the facility money by reducing recidivism and increasing staff efficiency.

### **More about Black Creek ISC**

Black Creek Integrated Systems is a turn-key source for modern, touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
