

****FOR IMMEDIATE RELEASE****

City of Carrollton, Texas Selects Black Creek's SallyPort® Jail Management System

Birmingham, AL – January 10, 2019 – The City of Carrollton, Texas has selected Black Creek Integrated Systems' **SallyPort**® Jail Management System for implementation at its city jail.

The Carrollton City Jail, located in Carrollton, TX, serves both Carrollton and its neighboring community of Addison, TX, in providing short-term detention services.

SallyPort®, a full-featured, browser-based jail management system, provides increased efficiency and security for inmate records management thru its many intrinsic features. **SallyPort**® allows an agency to streamline its operations with My Queues and workflow, inmate screening and classification, intra-agency messaging, and Electronic Shift Log which replaces paper logs. Other **SallyPort**® features include digital mugshot image capture, inmate time computation, inmate property inventory and transactions, standard and ad-hoc reporting capabilities, medical module, expansive audit capabilities, threat group assessment, and more. As part of the implementation project, Black Creek will provide an interface between **SallyPort**® and the Carrollton City Police Department's Records Management System, further streamlining agency operations.

The Carrollton City Jail will also employ **Watch Tour Manager**®, Black Creek's guard tour system which allows agency management to ensure inmate wellness and security checks are being conducted on schedule and in compliance with agency policy. **Watch Tour Manager**® provides real-time watch tour data collected by officers using Android or iOS-based, hand-held mobile devices. Tour progress is monitored in real time at desktop workstations with tour times, images, videos and officer comments wirelessly downloaded for archival purposes after collection.

More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
