Black Creek Announces Promotion of Ed Pickens to Field Operations Manager

Birmingham, AL – March 15, 2016 – Black Creek Integrated Systems is proud to announce the promotion of employee Ed Pickens to Field Operations Manager. Ed brings over 38 years of security industry experience and a strong expertise in corrections engineering and operations to his new position.

Prior to joining Black Creek, Ed had begun working in the security industry in 1978, and specifically in the correctional security industry in 1980, when he was a principal with Rosser Fabrap, a nationally recognized Architectural/Engineering firm specializing in correctional facility design. Ed has been with Black Creek since 1993 when he came on board as an engineer, and then transitioned to project management in 2000. In his role as project manager, he successfully oversaw over 70 correctional facility projects, and will bring that same focus and attention to detail in his new role.

Ed is excited to bring a wider skill set to the table at Black Creek. In his new position he will be responsible for supervising on-site installation technicians, overseeing project schedules, coordinating the design and installation of projects with on-site personnel, and supervising project quality control.

More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
