

****FOR IMMEDIATE RELEASE****

Pamlico County, NC, Awards Black Creek A Contract for Video Visitation

PAMLICO CO. LAW ENFORCEMENT CENTER (BAYBORO, NC)

Birmingham, AL – April 23, 2018 - Black Creek Integrated Systems Corp. has been awarded a contract by the County of Pamlico, NC to replace the defunct video visitation system at the 108-bed Pamlico County Detention Center located in the Law Enforcement Center in Bayboro, NC. The existing system was installed in 2006.

Black Creek will furnish and install inmate and public video visitation stations, one portable inmate station on a mobile cart (for infirmary use and in other areas where an inmate may be incapacitated), an administrative monitoring workstation, application server, and recording server. Black Creek's IP Visitor software will be provided to manage and record visits as well as perform scheduling and administration. Black Creek will also provide browser-based video visitation software to allow visitors to visit inmates remotely. Unlike so-called "free" systems by other companies, Black Creek's revenue sharing model allows the jail to keep the majority of revenue generated from remote visits, which will allow the jail to quickly amortize the cost of the system.

A Black Creek IP Visitor® Video Visitation system enables family members, friends, and professionals to visit the incarcerated both on premise and remotely from their homes or offices. The remote visitation option is generally more cost-effective than in-person trips for most visitors to the facility. The system can significantly increase security while generating revenue for a facility. Learn more about [Black Creek's IP Visitor Video Visitation System >](#)

More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
