SENIOR LEVEL SECURITY SYSTEM INSTALLATION TECHNICIAN

Black Creek Integrated Systems is a leading national supplier of highly sophisticated, computerized, and integrated electronic security systems for the correctional industry. Black Creek systems feature state-of-the-art components such as control devices, onsite and online video visitation systems, cameras, and real-time inmate tracking with our RFID tracking devices. In its 37 years of existence, Black Creek has developed an unequalled reputation for innovation and excellence in the design of its products and the support of its clients.

We are seeking a qualified and experienced senior-level security system installation technician for a full-time position in our Field Operations Department.

Essential Duties:

- Install, terminate, and test security system field devices including CCTV cameras, access control devices, intercom stations, pushbuttons, and various other security devices
- Terminate security system head-end equipment cabinets
- Troubleshoot hardware and software
- Act as Black Creek technical liaison with installation subcontractors
- Provide necessary reporting, scheduling, and job status information to Black Creek Project Managers
- Perform post-installation system start-up and commissioning testing, owner training, and turn-over certification
- Perform additional miscellaneous tasks as required
- This position requires a great deal of nationwide travel – typically three weeks out with a long week-end home. Because of the travel requirements of this position and the locations of our projects across the United States, we do not require residency in close proximity to our home office in Alabama.

Job Qualifications/Requirements:

- Minimum 3-5 years low voltage or security system installation experience (2 years at the supervisory level)
- Must pass a criminal history/background check to work inside correctional facilities
- Extensive knowledge in terminal strip, punch block, cat. 6 and minor solder terminations
- Strong electrical background
- Ability to work with minimal supervision
- Demonstrated leadership/supervision experience
- Ability to read and understand basic electrical schematics and instructions
- Strong computer hardware and networking skills
- Working knowledge of Microsoft Office
- Must furnish basic hand tools
- Maintain wire termination standards and color coding
- Ability to differentiate colors
- Ability to lift minimum of 50 pounds
- Must have a valid driver license with clean driving record
