Birmingham, AL – June 18, 2018 - Black Creek has been awarded a contract by Cobb County's Property Management Department to extend its existing touchscreen security system installed at the Cobb County Courts Complex, located in Marietta, Georgia, into the newly renovated 4th floor of the Superior Court. Cobb County has been working with Black Creek since 1995.

Black Creek will furnish and install security cameras, duress pushbuttons, proximity card readers, duress annunciators, and will expand the existing headend electronics to fully integrate all new devices into the existing Super Display® Touchscreen consoles.

Each Super Display® Touchscreen station features LCD monitors that display all the facility's security controls and a CCTV camera call-up and video display. An officer can easily select different camera viewpoints, control facility utilities, and more. The system provides agencies with a modern solution that incorporates all aspects of correctional facility physical security into a single, fully integrated package.
