Monroe County Re-ups with Black Creek to Upgrade Security System at the Monroe County Jail

MONROE COUNTY JAIL. (PHOTO: MONROECOUNTY.GOV)

Birmingham, AL – December 4, 2013 – Black Creek has been awarded a contract to upgrade the electronic security control system for the Monroe County Jail, located in Rochester, New York. The existing Black Creek system has been in use in the 1,159-bed facility since 2004.

Black Creek will also upgrade the current CCTV System to Black Creek's latest [Digital Video Display](#) product.

Additionally, a new [Watch Tour](#)® Manager software package and Watch Tour® Administration workstation will be furnished and installed.

Black Creek's recording systems extend the "eyes" of control room officers. Existing or new security cameras are set up in user-configurable display formats on Black Creek's high-resolution LCD touchscreen monitors and can also be accessed over the internet by authorized users. All CCTV feed is recorded 24/7 for a timespan determined by the facility. Authorized personnel can burn footage to DVD or with tamper-revealing security for evidentiary purposes.

More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
