

# WHY BLACK CREEK?

## Smarter Jail Operations for Today's Challenges

**Staffing shortages. Budget pressure. Rising liability.**

You're being asked to do more, with less, and the margin for error keeps shrinking. Black Creek helps detention facilities operate safer, more efficiently, and with greater accountability—without adding headcount or complexity.

### THE PROBLEM

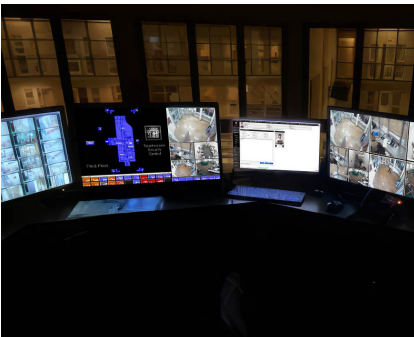

Most jails are managing operations across:

- Disconnected systems
- Multiple vendors
- Multiple facilities
- Manual processes

Data silos and fragmentation lead to:

- Inefficiencies and overtime costs
- Gaps in visibility and communication
- Increased operational, security, and financial risk

### THE BLACK CREEK ADVANTAGE

#### **ONE PLATFORM. TOTAL CONTROL.**

Unify your:

1

- Security Control Systems
- Jail Management Software
- Detainee Tracking and Well-Being Monitoring
- Officer Duress
- Records Management Software

**Real-time visibility across your entire facility**

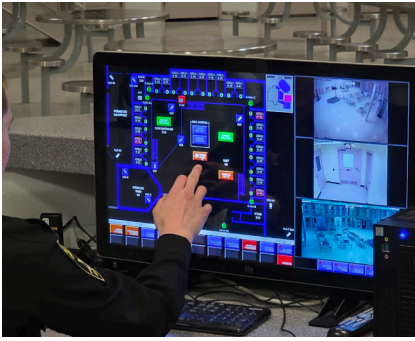

2

#### **DO MORE WITH LESS STAFF**

- Automate routine tasks
- Centralize operations
- Improve communication across teams

**Reduce overtime. Increase efficiency. Maintain safety.**

3

### **LOWER TOTAL COST OF OWNERSHIP**

Replace multiple disparate systems with one integrated solution:

- Fewer vendors for greater accountability
- Less IT burden
- Reduced maintenance costs

**Maximize your budget without sacrificing capability**

4

### **REDUCE LIABILITY & RISK**

- Real-time monitoring and alerts
- Full audit trails and reporting
- Better incident documentation

**Stronger compliance. Better defensibility. Safer facilities.**

5

### **BUILT FOR CORRECTIONS**

- Not generic & not adapted from industrial-use software
- Designed specifically for how jails operate
- Built with input from corrections professionals

**Faster adoption. Better outcomes. Proven performance.**

## **WHY IT MATTERS**

Black Creek helps your agency:

- Operate safely despite staffing shortages
- Control costs in tight budget environments
- Reduce liability exposure
- Simplify operations with one tightly integrated system

## **LET'S TALK**

If you're evaluating how to modernize your facility, improve efficiency, or reduce risk—let's have a conversation.
